The retention of the words "Military Assistant" in Article 365 of the Service Regulations has become an anachronism now. They had significance when the offices of the Military Assistant and the Chief Commandant were held by one and the same officer. The two having long ago been separated, and as the Chief Commandant only deals with pension applications in the first instance, his name should have been substituted in place of the Military Assistant.

G The draft rules submitted by the Comptroller have passed through the Council and may be approved.
